

MACSIM system, list of available items

The list of items below includes the following sections:

1. Components common for all kinds of training/testing
2. Components for training/testing of prehospital functions
3. Components for training/testing of hospital functions
4. Components for training/testing of overall command functions
5. Components specific for complete MRMI-setup (can also be ordered separately)
6. Preprinted magnetic films, in rolls or attached to PVC-boards

All symbols and signs below are produced of pre-printed and laminated, anti-polar magnetic film for firm attachment to magnetic-film boards, comfortable to handle and easy to store. Delivered sorted after function in labeled boxes.

As a user, or potential user, of the system you are recommended to go through the list carefully and identify the components you need for your specific use of the system. You are then welcome to contact us for prices, which depends the amount of material you order. To organize an MRMI-course – the most advanced use of the system – you need all components listed under “included in MRMI-set”.

You can on special request get all the components listed below with text in your own language and also designed after your own organization. Contact us for further information.

| Item | Article-ID | Included in MRMI-set (number) | Your need (number of items) |
|---|--------------|-------------------------------|-----------------------------|
| 1. Components common for all kinds of training/testing | | | |
| <i>Casualty cards</i> | | | |
| Casualty cards, terrorist scenario, text on both sides, including all information needed to determine the outcome, size 9 x 7.5 cm. | CCT- 001-300 | 300 | |
| Casualty cards, bigger size (17 x 14 cm), symbol explanation on back-side, for attachment to casualty-actors in live exercises, or for lecture-room training in triage and primary management of severe trauma. | CCL- 001-300 | - | |
| Casualty cards dead on scene, same size and design as above | CCD-301-330 | 30 | |
| Casualty cards non-injured, psychologically shocked, missing dead/injured relatives or friends. Size and design as above | CCP-331-360 | 30 | |
| <i>Manuals & books</i> | | | |
| Manual to set-up MRMI course-venue | MAN-001 | 1 | |
| MRMI Instructor Manual | MAN-002 | 1 | |

| Item | Article-ID | Included in MRMI-set (number) | Your need (number of items) |
|--|------------|-------------------------------|-----------------------------|
| MRMI Student Manual | MAN-003 | 1 | |
| MRMI Course Book (Only delivered with complete system, but can be ordered from www.springer.com) | - | 1 | |

2. Components for training/testing prehospital functions

| Rescue | HLM-006 | 2 | |
| Police | HLM-007 | 2 | |

3. Components for training/testing hospital functions

Patient cards “non-disaster patients”

Cards of the same size as the casualty cards but with “regular” illness/trauma to illustrate the “normal” patient-flow to and into the hospital. Including patients in Emergency department, Surgery and Intensive care. Three different sets of patients: University hospital with all specialties, Regional hospital and County hospital. 96 patients in each set.

| | | | |
|-------------------------|---------|---|--|
| Set University hospital | NDP-001 | 1 | |
| Set Regional hospital | NDP-002 | 1 | |
| Set County hospital | NDP-003 | 1 | |

Hospital staff symbols

Doctors

Color white, labelled with specialty & rank

| | | | |
|----------------|------------|--------|----|
| Surgery | | | |
